Trace Summary

This section provides the summary of Trace in the table below.

	Forward			Backward		
TraceName	**Covered**	**Uncovered**	**Rationalized**	**Covered**	**UnCovered**	**Rationalized**
MR-To-SR	8	0	12	57	0	0
SR-To-ABB	57	0	0	5	0	0
ABB-To-Code	5	0	0	N.A.	N.A.	N.A.
RIM-To-SR	0	0	0	N.A.	N.A.	N.A.
RIM(Code)-To-Code	0	0	0	N.A.	N.A.	N.A.
MR-To-Test	8	0	12	30	0	0
SR-To-Test	56	0	1	110	0	0
RIM(ITST)-To-Test(Ver-n-Val)	0	0	0	N.A.	N.A.	N.A.
RIM(UT)-To-Test(UT)	0	0	0	N.A.	N.A.	N.A.

Review Item Summary

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

This section provides the summary of review items in the table below.

Item	Total	Approved	Not Approved
ProductRequirements	9	9	0
MarketRequirements	11	11	0
SoftwareRequirements	57	57	0
RiskMitigation	0	0	0
VerificationTestCases	110	110	0
ValidationTestCases	30	30	0

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

Review Request Summary

This section provides the summary of review requests in the table below.

Total reviews requests	39
Reviews with no approval date	0
Reviews with no reviewer information	0

Remarks:

There are no requirements related to OSS, PSS Classification, Languages for UI or User Manuals and other user documentation related requirements

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

Trace Details

This section provides the details of Trace in the table below.

TraceName : MR-To-SR

Covered (Forward-Backward) for trace MR-To-SR

From Item	To Item
65612 (Rev:19) - Interfaces	70223 (Rev:12) - Get all modalities for a given tenant
	313525 (Rev:8) - SR_Device_Administration_Language_Support
	323508 (Rev:8) - Manage_Data_Access_for_tp_Offerings
	323517 (Rev:7) - Category_Management_for_a_Specific_Scanner
	323523 (Rev:6) - Related_Scanner_Information
	168018 (Rev:8) - DeviceAdministration_Interfaces
65614 (Rev:14) - Operations monitoring	65782 (Rev:32) - List of modalities for a given tenant Id
65615 (Rev:15) - Interoperability with teamplay Platform	68993 (Rev:13) - Exclude Non-Siemens devices with Multi vendor support license
65616 (Rev:20) - License Model and Sales Items	68993 (Rev:13) - Exclude Non-Siemens devices with Multi vendor support license
65680 (Rev:22) - Device Administration	39565 (Rev:50) - Identify devices to AutoRemove
	52913 (Rev:24) - Export modality information to excel
	52915 (Rev:24) - Bulk operation include and exclude modalities
	52916 (Rev:25) - Bulk operation merge modalities
	52917 (Rev:25) - Bulk Operation Remove modality
	65074 (Rev:11) - Show modalities available on today
	65075 (Rev:11) - Show modalities for a custom period
	65076 (Rev:15) - Show or hide a modality information

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

From Item	To Item
	65077 (Rev:24) - Search by a modality
	65078 (Rev:13) - view modality details in batches
	65686 (Rev:7) - Include/exclude the enabled modality from selected offering
	65687 (Rev:7) - Enable newly identified modalities for administration
	65688 (Rev:10) - Remove selected modality
	65782 (Rev:32) - List of modalities for a given tenant Id
	66511 (Rev:18) - Filter on enabled modalities
	67484 (Rev:22) - Open data sheet for a modality
	67486 (Rev:18) - Manage protocol of a modality
	67487 (Rev:11) - Manage usage of a modality
	67813 (Rev:11) - Merge institution devices
	67819 (Rev:11) - Unmerge institution devices
	68950 (Rev:14) - Enable/Disable modality for offerings
	68992 (Rev:11) - Assign categories to scanners
	68993 (Rev:13) - Exclude Non-Siemens devices with Multi vendor support license
	69358 (Rev:9) - Create categories to group scanners
	69497 (Rev:12) - Delete category for scanners
	69498 (Rev:13) - Edit a category
	69519 (Rev:10) - Bulk action on categories
	70223 (Rev:12) - Get all modalities for a given tenant
	70858 (Rev:11) - Bulk operation on category assignment to modalities
	70859 (Rev:8) - Show count of modalities
	70860 (Rev:11) - Sort enabled modalities
	70861 (Rev:8) - Rename modality
	70862 (Rev:9) - Edit modality
	70863 (Rev:12) - No valid modalities for an institution
	70865 (Rev:10) - Filter on new modalities
	70866 (Rev:9) - Filter on removed modalities
	71667 (Rev:9) - Sort new modalities

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

From Item	To Item
	71668 (Rev:9) - Sort removed modalities
	74044 (Rev:8) - Platform maintain fleet of institution modalities
	92006 (Rev:8) - Export complete modality list information to excel
	234624 (Rev:12) - Process deadletter messages
	250958 (Rev:6) - Clear all filters
	255069 (Rev:15) - Manage modality for MR Dashboard offering
	280602 (Rev:23) - Manage modality for CT Dashboard offering
	323524 (Rev:13) - Device_Onboarding_through_Admin_Center
	347652 (Rev:18) - FleetLink Scanners for MR Dashboard
	384677 (Rev:11) - Map Modality Name to Alias Name
	384682 (Rev:17) - Update Modality Information from Admin Center
	206353 (Rev:6) - Webjob-Analyzer to debug the existing webjob
	206357 (Rev:6) - BlobReplay Tool to replay processed studies
65685 (Rev:16) - Identify new scanner for Device Administration	105265 (Rev:19) - Calculate UDI modality hash for SHS scanners using Material Number and Serial Number
105264 (Rev:14) - Identify SHS scanners using Material number and serial number combination	105265 (Rev:19) - Calculate UDI modality hash for SHS scanners using Material Number and Serial Number
180871 (Rev:10) - Identify Injectors in Device Administration	201128 (Rev:27) - Process and Manage Injector data

	162438 (Rev:25) - Scenario: Fetch details of categories in pages irrespective of tenant
	162439 (Rev:30) - Scenario Outline: Fetch details of scanners with data access enabled/disabled categories for a given tenant
65614 (Rev:14) - Operations monitoring	141130 (Rev:147) - Scenario: Persist the study-share triggered message received on syc-studyshare-triggered topic in cloudtable
	141131 (Rev:147) - Scenario: Persist the study-available message received on syc-study-available topic in cloudtable
	199425 (Rev:14) - Scenario: Process 3 DICOM Studies for operational Monitoring of Fleet webjob and verify the details in ReportFleetStudy_CL log analytics table
	210727 (Rev:7) - Scenario: Admin user of an institution is able to see exam count in Removed tab
65616 (Rev:20) - License Model and Sales Items	224932 (Rev:9) - Scenario: Hide Device Administration Application for unauthorized institution or user role
65680 (Rev:22) - Device Administration	75230 (Rev:15) - Access device administration as a admin user of teamplay
	137138 (Rev:170) - Scenario: Upload new study in teamplay Device Administration database by processing of DICOM study
	140414 (Rev:152) - Scenario: Update the StudyCount field for newly added modality
	140415 (Rev:152) - Scenario: Increment the StudyCount field for an already existing modality
	140416 (Rev:152) - Scenario: Update the StudyCount field for modality from the existing studies if this field has not been set before

From Item	To Item
65685 (Rev:16) - Identify new scanner for Device Administration	137128 (Rev:161) - Scenario: Add new SHS MR modality in teamplay Device Administration modality database by processing of DICOM study
	137129 (Rev:165) - Scenario: Add new SHS US modality in teamplay Device Administration modality database by processing of DICOM study
	137136 (Rev:161) - Scenario: Add new Phillips modality in teamplay Device Administration modality database by processing of DICOM study
	137137 (Rev:161) - Scenario: Add new Toshiba modality in teamplay Device Administration modality database by processing of DICOM study
105264 (Rev:14) - Identify SHS scanners using Material number and serial number combination	137127 (Rev:164) - Scenario: Add new SHS CT modality in teamplay Device Administration modality database by processing of DICOM study
180871 (Rev:10) - Identify Injectors in Device Administration	198847 (Rev:17) - Scenario: Integrate a new injector in device admin for an available scanner
65609 (Rev:28) - Supported Operating Environment	74097 (Rev:23) - Compatibility test: Windows 8.1 (Edge,Chrome, Firefox)
	74098 (Rev:21) - Compatibility test: Windows 10 (Edge,Chrome, Firefox)
	74099 (Rev:21) - Compatibility test: MacOS Monterey, MacOS Big Sur (Safari,Chrome,Firefox)
	74100 (Rev:21) - Compatibility test: iPadOS 15.x (Safari,Chrome)
	74101 (Rev:20) - Compatibility test: Android_10.x,11 (Default browser, Chrome)

From Item	To Item
39565 (Rev:50) - Identify devices to AutoRemove	137134 (Rev:163) - Scenario: Auto remove new modality in teamplay Device Administration when a study from new modality is uploaded with same institution name as that of previously removed modality.
	137135 (Rev:163) - Scenario: Auto remove new modality in teamplay Device Administration when a study from new modality is uploaded with 95% matching institution name as that of previously removed modality.
52913 (Rev:24) - Export modality information to excel	294575 (Rev:5) - Admin user of an institution is able to export list of modalities into an excel file
52915 (Rev:24) - Bulk operation include and exclude modalities	142614 (Rev:154) - Scenario: Admin user of an institution is able to Bulk Include data for all modality in Enabled Modalities tab for all teamplay performance management applications
	173782 (Rev:12) - Scenario: Disable All offerings for a modality
52916 (Rev:25) - Bulk operation merge modalities	74702 (Rev:147) - Scenario: Merge enabled modality
	179512 (Rev:15) - Scenario: Admin user of an institution should not have option to merge virtual modalities under one virtual modality
52917 (Rev:25) - Bulk Operation Remove modality	179513 (Rev:14) - Scenario: Admin user of an institution should be unable to remove virtual modality from Enabled Modalities tab
65074 (Rev:11) - Show modalities available on today	285238 (Rev:4) - Scenario: Get Enabled Modalities whose studies are last uploaded on Today's Date
65075 (Rev:11) - Show modalities for a custom period	211209 (Rev:9) - Scenario: Admin user of an institution is able to filter modalities for last year dates
	255790 (Rev:5) - Scenario: Upload Date Filter is able to filter modalities list for date format 'dd/MM/yyyy'
65077 (Rev:24) - Search by a modality	284667 (Rev:4) - Scenario: Get Filtered Enabled Modalities using search text
65078 (Rev:13) - view modality details in batches	174987 (Rev:9) - Scenario: Get Filtered Modalities By TenantId
	174988 (Rev:9) - Scenario: Get Filtered Enabled Modalities By TenantId
	186869 (Rev:9) - Scenario: Admin user of an institution is able to load modalities of his institution where the list is more than 20 modalities after filters are applied
65686 (Rev:7) - Include/exclude the enabled modality from selected offering	137130 (Rev:165) - Scenario: Add new Non-SHS MG modality in teamplay Device Administration modality database by processing of DICOM study to see the Mammo offering status

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

From Item	To Item
	137131 (Rev:166) - Scenario: Add new SHS non-MG modality in teamplay Device Administration modality database by processing of DICOM study to see the Mammo offering status
	137132 (Rev:165) - Scenario: Add new Non-SHS non-MG modality in teamplay Device Administration modality database by processing of DICOM study to see the Mammo offering status
	137133 (Rev:165) - Scenario: Add new SHS MG modality in teamplay Device Administration modality database by processing of DICOM study to see the Mammo offering status
	201102 (Rev:13) - Scenario: Verify if notifications are sent to offerings on institution name change in device administration
	303389 (Rev:6) - Scenario: Admin user of an institution is able to Enable or Disable offering
	314147 (Rev:6) - Test to validate the virtual modality payload in case of category deletion
	347258 (Rev:3) - Test to validate the payload in case of category detachment
65687 (Rev:7) - Enable newly identified modalities for administration	74701 (Rev:147) - Scenario: Enable new modality
	133619 (Rev:189) - Scenario: Admin user of an institution is able to enable modality from the list of available modalities in "New" tab of his institution
	143790 (Rev:138) - Scenario: Enable all offerings for siemens supported modality
65688 (Rev:10) - Remove selected modality	74703 (Rev:148) - Scenario: Remove enabled modality
	133620 (Rev:186) - Scenario: Admin user of an institution is able to re-enable modality from the list of available modalities in "Removed" tab of his institution
	175150 (Rev:17) - Scenario: Admin user of an institution is able to remove modality from Enabled Modalities tab
	175151 (Rev:16) - Scenario: Admin user of an institution is able to remove modality from New tab
65782 (Rev:32) - List of modalities for a given tenant Id	143791 (Rev:139) - Scenario: Fetch details of enabled modalities for a offering and tenantid
	162787 (Rev:24) - Scenario: Fetch details of all modalities for a tenant with valid application token

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

	186947 (Rev:8) - Scenario: Fetch details of all updated modalities for partial sync
	186948 (Rev:8) - Scenario: Fetch details of all modalities for full sync
66511 (Rev:18) - Filter on enabled modalities	71092 (Rev:18) - Test modality type filter reset upon institution switch
	142608 (Rev:169) - Scenario: Admin user of an institution is able to filter modalities list depending on Modality type in teamplay Device Administration
	142609 (Rev:162) - Scenario: Admin user of an institution is able to filter modalities list depending on data enabled for teamplay performance management applications
	142610 (Rev:158) - Scenario: Admin user of an institution is able to filter modalities list depending on Categories assigned
	196614 (Rev:16) - Scenario: Admin user of an institution is able to filter modalities and retain filters across tabs
	303189 (Rev:7) - Scenario: Filter Badge disappears when filters are set to default state
	303286 (Rev:7) - Scenario: Admin user of an institution is able to retain filter badge across tabs
67484 (Rev:22) - Open data sheet for a modality	173348 (Rev:14) - Scenario: Last uploaded date check for a modality
	174416 (Rev:13) - Scenario: Get Modality Info
	174930 (Rev:14) - Scenario: Get Modality Details By ModalityId
	186833 (Rev:19) - Scenario: Admin user of an institution is able to view Data sheet of the modality
	232779 (Rev:15) - Scenario: ReceiverId should get updated for a modality when a study for same scanner is uploaded via a different receiver
	232780 (Rev:15) - Scenario: ReceiverId should get updated for a study when same study is uploaded for scanner but via different receiver
	264720 (Rev:4) - Scenario: Get Receiver Information
67486 (Rev:18) - Manage protocol of a modality	173338 (Rev:12) - Scenario: CT\NM scanners for protocols should be enabled in device admin

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

From Item	To Item
	240896 (Rev:4) - Scenario: Enable protocol offering for siemens supported modality while moving from Removed to Enabled state
67487 (Rev:11) - Manage usage of a modality	201093 (Rev:5) - Scenario: Send notification to offerings on enabling the offerings for the scanner
67813 (Rev:11) - Merge institution devices	74702 (Rev:147) - Scenario: Merge enabled modality
	174266 (Rev:9) - Scenario: Merge supported and non supported scanners for protocol
	308726 (Rev:6) - Scenario: Merge enabled modality and check if ModalityTypes are appended in alphabetical order
67819 (Rev:11) - Unmerge institution devices	74704 (Rev:148) - Scenario: Unmerge Merged modality
	211181 (Rev:5) - Scenario: Test unmerge selected modalities operation for attached categories behavior when individual modalities don't have any categories assigned to them
	211182 (Rev:5) - Scenario: Test unmerge selected modalities operation for attached categories behavior when some individual modalities have categories assigned to them
68950 (Rev:14) - Enable/Disable modality for offerings	171829 (Rev:28) - Scenario: Admin user of an institution should not be able to view Offering data coming from modality without licenses and permissions
	174170 (Rev:11) - Scenario: Disable an offering for a modality
	174304 (Rev:11) - Scenario: Enable an offering for a modality
68992 (Rev:11) - Assign categories to scanners	211181 (Rev:5) - Scenario: Test unmerge selected modalities operation for attached categories behavior when individual modalities don't have any categories assigned to them
	211182 (Rev:5) - Scenario: Test unmerge selected modalities operation for attached categories behavior when some individual modalities have categories assigned to them
68993 (Rev:13) - Exclude Non-Siemens devices with Multi vendor support license	73970 (Rev:24) - Deactivating multivendor Feature from device administration
	205830 (Rev:10) - Scenario: Fetch modalities for UI for Institution with Multivendor Feature support license
	205831 (Rev:15) - Scenario: Fetch modalities for UI for Institution without Multivendor Feature support license

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

From Item	To Item
69358 (Rev:9) - Create categories to group scanners	66507 (Rev:149) - Scenario: Create data access enable category
69497 (Rev:12) - Delete category for scanners	66508 (Rev:158) - Scenario: Delete data access enable category
	66509 (Rev:157) - Scenario: Delete data access enable category which is assigned to any group
69498 (Rev:13) - Edit a category	66510 (Rev:157) - Scenario: Update existing data access category
	74699 (Rev:150) - Scenario: Disable category for data access which is assigned to any group
69519 (Rev:10) - Bulk action on categories	74721 (Rev:147) - Scenario: Detach category from Modalities
70223 (Rev:12) - Get all modalities for a given tenant	255790 (Rev:5) - Scenario: Upload Date Filter is able to filter modalities list for date format 'dd/MM/yyyy'
70858 (Rev:11) - Bulk operation on category assignment to modalities	74720 (Rev:147) - Scenario: Categorize existing modalities
70859 (Rev:8) - Show count of modalities	142610 (Rev:158) - Scenario: Admin user of an institution is able to filter modalities list depending on Categories assigned
70860 (Rev:11) - Sort enabled modalities	284937 (Rev:4) - Scenario: Get Filtered Enabled Modalities and sort
70861 (Rev:8) - Rename modality	216764 (Rev:6) - Scenario: Test merge unmerge functionality on renamed virtual modality
	303534 (Rev:4) - Scenario: Admin user of an institution is able to edit a modality
70862 (Rev:9) - Edit modality	74700 (Rev:150) - Scenario: Rename Modality
	303534 (Rev:4) - Scenario: Admin user of an institution is able to edit a modality
	304768 (Rev:7) - Scenario: Admin user of an institution should be able to edit a merged modality
70863 (Rev:12) - No valid modalities for an institution	195421 (Rev:11) - Scenario: No data is available on the app if no modality is onboarded
70865 (Rev:10) - Filter on new modalities	142608 (Rev:169) - Scenario: Admin user of an institution is able to filter modalities list depending on Modality type in teamplay Device Administration
70866 (Rev:9) - Filter on removed modalities	142608 (Rev:169) - Scenario: Admin user of an institution is able to filter modalities list depending on Modality type in teamplay Device Administration
71667 (Rev:9) - Sort new modalities	284938 (Rev:4) - Scenario: Get Filtered New Modalities and sort
71668 (Rev:9) - Sort removed modalities	284939 (Rev:5) - Scenario: Get Filtered Removed Modalities and sort

From Item	To Item
74044 (Rev:8) - Platform maintain fleet of institution modalities	303389 (Rev:6) - Scenario: Admin user of an institution is able to Enable or Disable offering
92006 (Rev:8) - Export complete modality list information to excel	294575 (Rev:5) - Admin user of an institution is able to export list of modalities into an excel file
105265 (Rev:19) - Calculate UDI modality hash for SHS scanners using Material Number and Serial Number	137139 (Rev:161) - Scenario: Identify and auto update the existing modality and study count in teamplay Device Administration when a study is uploaded with the updated Manufacturer name for previously enabled modality.
	197066 (Rev:10) - Scenario: Process a UDI related Study and verify the details in ReportFleetStudy_CL log analytics table for the UDI enabled tenant
201128 (Rev:27) - Process and Manage Injector data	205500 (Rev:13) - Scenario: Verify if notifications are sent to offerings on integration of a new injector in device administration
	205501 (Rev:11) - Scenario: Updates in injector attributes should get reflected in device admin
	205601 (Rev:7) - Scenario: Get Filtered Injectors By Search Keyword
	205697 (Rev:7) - Scenario: Disable an offering for an injector
	205698 (Rev:7) - Scenario: Enable an offering for an injector
	205783 (Rev:5) - Scenario: Send notification to offerings on enabling the offerings for the injector
234624 (Rev:12) - Process deadletter messages	217573 (Rev:10) - Scenario: Replay deadletters from a topic on to queue
	217574 (Rev:10) - Scenario: Replay deadletters from a queue
250958 (Rev:6) - Clear all filters	304098 (Rev:5) - Scenario: Admin user of an institution is able clear all applied filters
255069 (Rev:15) - Manage modality for MR Dashboard offering	258306 (Rev:6) - Scenario: SHS MR scanners should be available for enablement in MR Dashboard
	304099 (Rev:5) - Scenario: Admin user of an institution should be able to view Offering data coming from modality with licenses and permissions
280602 (Rev:23) - Manage modality for CT Dashboard offering	280797 (Rev:6) - Scenario: SHS CT scanners should be available for enablement in CT Dashboard
313525 (Rev:8) - SR_Device_Administration_Language_Support	314139 (Rev:3) - Localization check: Portuguese & Swedish Language support
323508 (Rev:8) - Manage_Data_Access_for_tp_Offerings	323674 (Rev:6) - Scenario: Enable an offering for a scanner

Restricted © Siemens Healthineers AG, 2025. All rights reserved.

From Item	To Item
	323675 (Rev:6) - Scenario: Disable an offering for a scanner
323517 (Rev:7) - Category_Management_for_a_Specific_Scanner	323672 (Rev:6) - Scenario: Categorize a scanner
	323673 (Rev:6) - Scenario: Detach a category from a scanner
323523 (Rev:6) - Related_Scanner_Information	323670 (Rev:6) - Scenario: Get related scanners by scannerId
	323671 (Rev:6) - Scenario: Get Scanner Info By ScannerId
323524 (Rev:13) - Device_Onboarding_through_Admin_Center	323676 (Rev:15) - Scenario: Manually Onboard a new scanner
	323677 (Rev:15) - Scenario: Manually Onboard a scanner that already exists
	323678 (Rev:10) - Scenario: Compute offering status for scanner onboarded via API
347652 (Rev:18) - FleetLink Scanners for MR Dashboard	348822 (Rev:7) - Scenario: Enable MRDashboard for fleetlink scanner
	360349 (Rev:4) - Scenario: Siemens MR scanner should become not active for MRDahboard once the institution has a fleet link scanner
	379293 (Rev:4) - Set fleetlink mrdashboard status not active via nightly trigger
384677 (Rev:11) - Map Modality Name to Alias Name	323676 (Rev:15) - Scenario: Manually Onboard a new scanner
384682 (Rev:17) - Update Modality Information from Admin Center	323677 (Rev:15) - Scenario: Manually Onboard a scanner that already exists
	384669 (Rev:4) - Scenario: Update Modality Name in Device Admin via Admin Center
168018 (Rev:8) - DeviceAdministration_Interfaces	162724 (Rev:25) - Scenario: Fetch details of modalities from DA database to update offerings database as part of nightly sync
	162787 (Rev:24) - Scenario: Fetch details of all modalities for a tenant with valid application token
	163290 (Rev:12) - Scenario: Fetch the modality details from DA database for a given StudyInstanceUid
206353 (Rev:6) - Webjob-Analyzer to debug the existing webjob	203795 (Rev:12) - Test to check if WebjobAnalyzerTool runs
206357 (Rev:6) - BlobReplay Tool to replay processed studies	203797 (Rev:11) - Test to check if BlobReplay Tool runs
